# *columbine cares for seniors*

## **SKILLED NURSING CARE**

Our skilled nursing care is provided 24-hours a day by registered nurses (RN), licensed practical nurses (LPN), and certified nursing assistants (CNA). Skilled care may include medication administration and therapies. Services may also include assistance with bathing, dressing, mobility, and eating.

## **NURSE PRACTITIONER/ PHYSICIAN'S ASSISTANT**

A Nurse Practitioner is a Registered Nurse (RN) who has a master's degree in nursing. A Physician's Assistant has extensive training in health care. The Nurse Practitioner or Physician's Assistant works in collaboration with contracted physicians to treat medical issues.

## **PHYSICAL THERAPY**

Our Physical Therapy program may include gait and balance training, wheelchair positioning, therapeutic exercise, prosthetic training, and family education. Home evaluations are offered to residents prior to discharge.

---

## **OCCUPATIONAL THERAPY**

Our Occupational Therapy programs may include assessment and training with activities of daily living skills (ADL's). Training focuses on upper and lower extremity strengthening, splinting, cognitive processing, and family education. Home evaluations are offered to residents prior to discharge.

## **SPEECH/LANGUAGE PATHOLOGY**

Our Speech Therapy programs may assist with communication, swallowing and/or language skills. Swallowing therapy involves strengthening of the throat muscles and determining food/liquid consistencies.

## **RESTORATIVE NURSING**

This program is designed for residents needing a functional therapy skill but not requiring the daily skills of a licensed therapist. Restorative aides may provide functional therapy, including ambulation, range of motion exercises, and assistance with eating.

---

## **SOCIAL SERVICES/ RESIDENT SERVICES**

Our Social Services staff advocate for residents, coordinate individualized care plan meetings, assist with psychosocial needs, and utilize community resources to assist in providing care for our residents.

## **DISCHARGE PLANNING**

Our interdisciplinary team facilitates the discharge planning process. Information regarding discharge needs is gathered from our nurses, therapists, social services, the resident, and their family for transition back to the community.

## WHAT OUR CLIENTS ARE SAYING

*"Words can't express how thankful I am for the fantastic care you gave to my best friend and neighbor. Never have I seen such a hard working, caring, dedicated group of folks as you! This is by far the best nursing facility I have ever been involved with!"* **Friend of Resident**

*"I would like to express my deepest appreciation to the entire staff that served my mother. You all are very special people; this world would be a better place with more of your type."* **Family Member**

*"You all gave a new meaning to caring. I cannot think of one thing that could have been improved on in her entire stay."* **Family Member**
