Compression and Lymphedema Program

Your Source

for personalized compression and Lymphedema education, consultation, and management for individuals experiencing lower extremity edema, venous insufficiency, venous stasis ulcers, Lymphedema, and Lipedema.

Individuals At Risk

Individuals who have had mastectomies, lumpectomies, radiation treatment, lymph node removal, surgeries, infections, or trauma to the limbs may be at risk for developing Lymphedema.

The First Step

If you have venous issues or Lymphedema, the first step is to meet with a trained healthcare professional to medically assess your needs, and develop a plan to manage and treat your condition.

When There Is A Need

for any type of compression or Lymphedema garments, Columbine Medical Equipment will aid individuals and families with individual need assessment based on:

- **Types of products**
- **Sizing**
- **Pricing**

Our Services Include:
